OBPM, A WEEK IN A LIFE

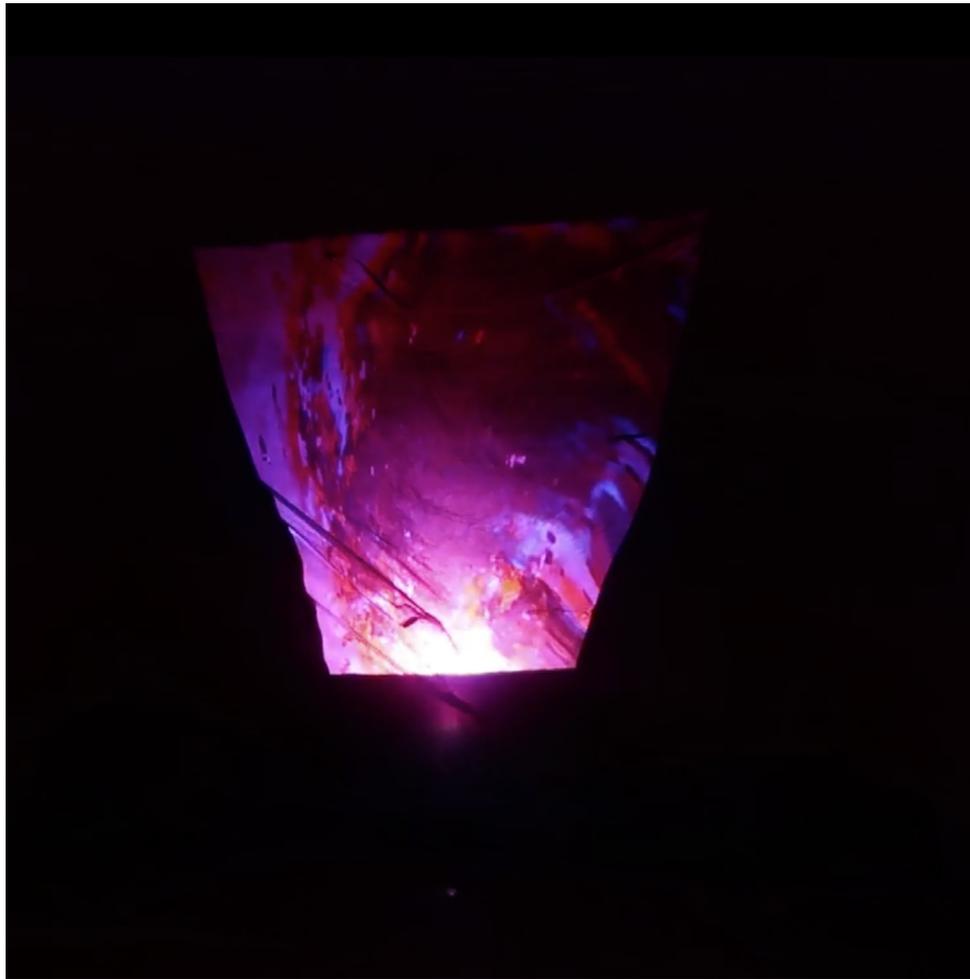

'A Week in a life' gives life to the fictional world created within the project OBPM – zero beats per minute.

'A Week in a Life' is a small documentary series that follows a character, Ana, through five days of her eternal life. This is not just another week, it represents a turning point. Ana got attached to her bench, she spends a lot of time with it. But it is on the verge of breaking. When it finally does, she needs to say goodbye properly. Spirituality helps her cope with a different kind of death, the death of an object. This was an ending, but there is never a final end for Ana.

Ana Lua Caiano composed all the themes for these documentary series and directed the videos.
